Hi Kent

Thanks, that is what I thought, but wanted to make sure and wanted to let you know about the facilities where OLEM has scheduled visits. I think your question is more for Annette than me. But if there is anything we can do to help you prepare, especially for the facilities that we visit, let me know.

Jackie

Hi Jackie –

Thanks for keeping us informed.

We need to have a discussion about how we are going to identify recycling facilities for collection of tire crumb rubber for analysis, and then how we are going to manage sample collection. I don't think we will have all approvals for sample collection until at least the end of May, and that might be optimistic depending on how reviews go. But, once we have approvals, we have to go out and get samples as rapidly as possible. Does that mean lining up and getting Oks from facilities in advance?

Subject: upcoming tire crumb tours

Hi Kent,

Just wanted to update you on the latest regarding tours of tire crumb facilities.

It looks like May 12 will be the date for the tour to the [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] both located near [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]. The process used by [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]

[Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]

After the public webinar last week, the CEO of [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] contacted EPA about visiting the main plant in

[Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] **Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]** OLEM is following up to schedule a tour. Here is the website for this company: [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]

There will also probably be a tour of [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] which makes crumb rubber infill. OLEM will talk with the company rep this week to set up something.

I'm not sure if you have thought any more about trying to get samples during these tours. It may not be workable but wanted you to know the status just in case. We can always follow up later with these facilities, as they are open to working with EPA (so far).

Jackie
